

SHARE HOPE & RESTORE CONFIDENCE

ENTLE KREATIVE SOLUTIONS (Pty) Ltd is spreading hope during these trying times! Unemployment has always been an issue in our country, now the COVID-19 pandemic made things worse as many companies had to cut down on resources and others had to close down, as a result, many lost their jobs.

We want to spread hope and build confidence to job seekers in South Africa by offering Curriculum Vitae reviews and designer CV for free. It will be in the form of a contest across social media platforms (Facebook, Instagram & Twitter). We will only be able to services six people per week, two users per platform.

How it will work:

EKS will post about this contest on the three social media platforms mentioned above, all they have to do is follow/like our pages then nominate anyone who will benefit from this by tagging them on the comment section. We will announce the winners weekly and contact them directly.

Winners will send us their CV's then Francine Mashabela who is a Career Development professional will review the CV and provide feedback on her suggestions. EKS will then design the CV based on the review and send it to the winner. It will help make their CV stand out, have all the relevant information, and catch the recruiter's eye!
